

SCREENING TO CARE

For the benefit of all students.

Screening to Care (**S2C**) is a school based initiative offered by PFCS within Vista Unified School District. Funding is provided by the County of San Diego.

Using **mySAEBRS** screening results, we identify and determine school community and student social-emotional need and connect students to appropriate level of care using the multi-tiered system of supports framework. We also accept referrals from school staff and parents for student involvement in Tier 2 or 3 services.

Tier 1

The School Community & Classroom

We recommend areas of focus to classrooms and the entire school to build positive relationships and a supportive atmosphere for all students.

Tier 2

Small Group Lessons & Check-Ins

We use the Second Step curriculum in small groups and individual check-ins to help students build skills - *like nurturing positive relationships, managing emotions, and setting goals* - so they can thrive in school and in life.

Tier 3

Individual Supports & Care Coordination

For students who require more formal individualized supports, we offer limited care coordination and connect students and their families to behavioral treatment.

Promotoras: Promoting and Supporting S2C.

Promotoras enhance the connection between parent / caregivers and schools.

They link families to needed community resources.

They build bridges between the school and community to develop a shared responsibility for student success.

For more information, contact the S2C Program Manager:

Chris DuVall, LMFT
